CAREER OBJECTIVE

Motivated third-year Information Technology student seeking an entry-level software development or internship opportunity. Interested in Python programming, web development, data analysis, and building practical software projects. Eager to learn, collaborate, and solve problems.

EDUCATION

Bachelor of Technology / Bachelor of Engineering in Information Technology

Example Institute of Technology, Gujarat | 2024–2028 (Expected) | Current Year: Third Year

Relevant subjects: Data Structures and Algorithms, Database Management Systems, Operating Systems, Web Development, Artificial Intelligence.

TECHNICAL SKILLS

Python, C++, SQL, HTML, CSS, JavaScript, Git, GitHub, Streamlit, pandas, problem solving, communication, teamwork.

PROJECTS

Text Compression System | C++, Huffman Coding, Streamlit

- Built a text compression prototype using Huffman Coding to demonstrate a greedy algorithm.
- Created a Streamlit interface for file compression, decompression, and displaying compression statistics.

AI Smart Study Planner | Python, Streamlit, pandas

- Developed a prototype that ranks study subjects by priority and suggests study-time allocation based on exam deadlines, difficulty, preparation level, and topics remaining.

EXPERIENCE

Academic Projects and Coursework | 2025–Present

- Practiced writing and testing small programs and documenting project requirements.
- Collaborated with classmates on academic project work and presentations.

CERTIFICATIONS & LEARNING

- Currently learning Python development, web application development, and software project documentation.

SOFT SKILLS

Communication, teamwork, active listening, adaptability, time management, and problem solving.
